BALANCED SLEEP: Getting enough sleep is important to your mental health.

You should strive for 7 to 9 hours of sleep per night and establish good sleep habits to help regulate your mood.

With a sleep diary, you can log your bedtime, night awakenings, and morning wake-up times. This helps you see your sleep patterns and overall sleep duration, as well as how often your sleep is disrupted. Additionally, a sleep diary helps you track activities affecting your sleep. You'll note when you exercise, nap, take medication, or consume caffeine or alcohol.

INSTRUCTIONS: (1) Write the date and type of day: Work, School, or Day Off. (2) Put the letter "C" in the box when you have coffee, cola or tea. Put "M" when you take any medicine. Put "A" when you drink alcohol. Put "E" when you exercise. (3) Put a "B" in the box to show when you go to bed. Put a "Z" in the box that shows when you think you fell asleep. (4) Put a "Z" in all the boxes that show when you are asleep at night or when you take a nap during the day. (5) Leave boxes empty to show when you wake up at night and when you are awake during the day. **SAMPLE ENTRY BELOW:**
